Profile

Passionate and results-driven developer, building responsive, high-performance web applications using React. Known for writing clean, maintainable code and rapidly turning ideas into smooth user experiences. Always learning, always improving.

Skills

- React JS
- Javascript (ES6+)
- Tailwind CSS
- Redux Toolkit
- HTML5/CSS3
- MUI & Shad CN
- React Bootstrap

Education

University of Central Punjab
Bachelor's in Software Engineering

10/2020 – 02/2025
lahore

Experience

Final year project

- Developed a full-stack web application for listing, searching, and booking rental properties.
- Implemented secure user authentication and authorization.
- Built functionality for property uploads with image support.
- Integrated advanced search filters for efficient property discovery.
- Designed a responsive, user-friendly UI using modern web technologies.

User Directory Web App

- Developed a responsive React + JavaScript application integrated with JSONPlaceholder API.
- Implemented real-time search filtering for dynamic user data display.
- Created detailed user views using modal and route-based navigation.
- Styled the interface with Tailwind CSS for a modern and responsive design.
- Utilized Axios for efficient API calls and data handling.
- Structured the codebase with reusable components and strict typing for maintainability.

Currency Converter

Converts currencies in real-time using exchange API integration with React, Javascript and Tailwind CSS.

Task Management App (React.js + Redux Toolkit)

- Implemented **Redux Toolkit slices** for managing tasks globally
- Added, updated, and deleted tasks with reducer functions
- Status toggle functionality using immutable state updates
- Responsive UI built with Tailwind CSS
